NOTES:

Full Moon
Harvest on 10/5

Full
Beaver Moon
11/3-4/17

Full Beaver Moon: The time to set beaver traps before the swamps froze,
to ensure a supply of warm winter furs.

MW: Sun Scorpio; square node Leo.

Thane coined the name "Moon Wobble" to describe the emotional reaction many have during this energetic influence: Impatience, emotion and acts without thinking are common.

This sometimes leads to accidents, revolutionary/emotional actions/reactions, and bad decisions.

If you are making a decision during this time you might want to let it set for a day or two and check your decision again to see if it still makes sense.

However, you can feel into the ebb and flow and find good times to work on self emotionally in both the low and high points,

With practice you can also feel/sense when the energy is there to help bring completion to tasks, goals and projects you may be working on.
