Home is a place where one flourishes. It is the ORIGIN of something; (Example: Piedmont is the home of Italy's finest wines.) Well, when you are on "The Journey Home", you are definitely returning to where you originated.

I will talk about "The Journey Home" at my next Sunday Meeting, March 10th. I'll talk about the two different HOMES that we live in everyday:

- 1) First I'll talk about our **material home**. We all have a material home. It is a physical, 3 Dimensional structure with doors & windows, rooms with floors and ceilings, toilets, sinks, bathtubs, plumbing, heating. Our 3D home has an address, a zip code.
- 2) Next, I'll talk about our **Non-material Home**. We all have a Non-material Home. You can't buy it or earn it. It is YOUR formless, dimensionless, timeless Essential Beingness always here NOW. I was raised in the Lutheran Church, part of the Christian religion. Where you raised in a particular religious belief? Religions tell us about the deeper values of life (Be of service, treat each other kindly, do not steal from one another, etc). Religions tell us what to believe. I remember asking my minister some deeper questions and being told, "This is not for you to question. You are to believe what we say." This made me question more.
- 3) Finally, I will share with you the TRUE HOME within that I have searched for and found and The Prosperos School of Ontology tools I have practiced for 48 years to make The Journey Home a Reality.
